🌐 IT (Information Technology) Roadmap (Week-wise Structured Plan)

🧠 PHASE 1: IT Fundamentals

📅 Weeks 1–6

📘 Week 1: Introduction to IT + Computer Basics

- What is IT? (roles: support, networking, sysadmin)
- Computer basics:
  - CPU, RAM, Storage
  - Input/Output devices

👉 Practice:

- Identify components in your PC/laptop
- Learn basic troubleshooting

📘 Week 2: Hardware Deep Dive

- Motherboard, BIOS
- HDD vs SSD
- RAM types

👉 Practical:

- Open PC (if possible) or watch teardown videos
- Install RAM / understand upgrades

📘 Week 3: Operating Systems Basics

- What is OS?
- Types:
  - Windows
  - Linux

👉 Install:

- Windows (if needed)
- Linux (dual boot or VM)

📓 Week 4: Windows OS (Hands-on)

- File system
- Task Manager
- Control Panel

👉 Practice:

- Install software
- Troubleshoot common errors

📓 Week 5: Linux Basics

- Commands:
  - ls, cd, mkdir, rm
- File permissions

👉 Practice daily in terminal

📓 Week 6: Basic Troubleshooting

- Slow PC fixes
- Network issues
- Software errors

👉 Mini Task:

- Fix common system problems

🧭 PHASE 2: Networking Fundamentals

📅 Weeks 7–14

📘 Week 7: Networking Basics

- What is a network?
- LAN, WAN

📘 Week 8: IP Addressing

- IPv4
- Subnet basics

👉 Practice:

- Find your IP
- Understand private/public IP

📘 Week 9: Networking Devices

- Router
- Switch
- Modem

📘 Week 10: OSI Model

- 7 layers (important for interviews)

📘 Week 11: Protocols

- HTTP / HTTPS
- FTP
- DNS

Week 12: Network Configuration

- Setup WiFi
- Router config

Week 13: Network Troubleshooting

- Ping
- Traceroute

Week 14: Basic Security

- Firewalls
- Antivirus

PHASE 3: System Administration

Weeks 15–22

Week 15: Windows Server Basics

- Active Directory intro

Week 16: User & Access Management

- Users, roles
- Permissions

Week 17: Linux Administration

- Users

- Services

📓 Week 18: File Systems

- Disk management
- Backup basics

📓 Week 19: Virtualization

- Virtual Machines

👉 Tools:

- VirtualBox / VMware

📓 Week 20: Monitoring Systems

- Logs
- Performance tracking

📓 Week 21: Automation Basics

- Shell scripting (Linux)

📓 Week 22: System Security

- Access control
- Updates

☁ PHASE 4: Cloud Computing

📅 Weeks 23–30

📘 Week 23: Cloud Basics

- What is cloud?
- Types:
  - IaaS, PaaS, SaaS

📘 Week 24: Cloud Providers

- AWS basics
- Azure / Google Cloud intro

📘 Week 25: AWS Core Services

- EC2 (servers)
- S3 (storage)

📘 Week 26: Deploying Apps

- Host a simple website

📘 Week 27: Networking in Cloud

- VPC
- Subnets

📘 Week 28: Cloud Security

- IAM (user roles)

📓 Week 29: Monitoring Cloud

- Logs
- Alerts

📓 Week 30: Mini Cloud Project

👉 Deploy:

- Website on AWS

🧠 PHASE 5: Advanced IT Skills

📅 Weeks 31–38

📓 Week 31–32: Cybersecurity Basics

- Threats
- Malware

📓 Week 33–34: Ethical Hacking Intro

- Vulnerabilities
- Tools basics

📓 Week 35–36: DevOps Basics

- CI/CD intro
- Automation

📓 Week 37–38: IT Support Skills

- Ticket systems
- Customer handling

🔵 PHASE 6: Projects & Practical Experience

📅 Weeks 39–46

📓 Week 39–40: Beginner Projects

- Setup home network
- Install OS

📓 Week 41–42: Intermediate Projects

- Build local server
- File sharing system

📓 Week 43–44: Advanced Projects

- Cloud deployment
- Secure network setup

📓 Week 45–46: Final Project

👉 Example:

- Full IT infrastructure setup
    - Server + network + security

🧭 PHASE 7: Job Preparation

📅 Weeks 47–52

📝 Week 47: Resume Building

- Highlight:
  - Skills
  - Projects

📝 Week 48: Certifications (Optional but Helpful)

- CompTIA A+
- Network+

📝 Week 49: Interview Prep

- Networking questions
- Troubleshooting scenarios

📝 Week 50: Practice Labs

- Real-world simulations

📝 Week 51: Apply for Jobs

- IT Support roles
- Internships

📝 Week 52: Freelancing Setup

- Offer services:
  - PC fixing

- Network setup

Weekly Routine

- 5 days learning
- 2 days hands-on practice

Daily:

- 2–3 hours minimum

Final Outcome (After 1 Year)

By Week 52:

✅ Strong IT fundamentals
✅ Networking + System Admin skills
✅ Cloud basics (AWS)
✅ Real-world projects
✅ Job-ready for:

- IT Support
- Network Technician
- Junior SysAdmin
